Handled by: I. Schelhaas

Date: 13th June 2025   Our reference

Dear Eren Ozdemir,

The Bernoulli Institute, Computer Science Department of the University of Groningen invites you to undertake your internship through the Erasmus+ Traineeship Program for a duration of 2 months at our institute, for the period of August 11th – October 11th 2025.

The internship will be full-time (38 hours a week) under the supervision of Prof. Dr. Fatih Turkmen and his team of PhD students. During this time, you will work on topics related to security/privacy of machine learning (e.g., LLMs, chatbots), security testing (e.g., fuzz testing) of software and systems, and distributed ledger technologies.

The university will provide you a flexible work space within the Institute to perform your work. We expect that all other expenses during your stay will be covered by you.

We look forward to welcoming you here.

Sincerely,

Prof. Dr. Fatih Turkmen
Associate Professor (Security and Privacy)
Bernoulli Institute
University of Groningen
